

Environmental policy

Poppe + Potthoff Hungária Gépgyártó Kft., one of the leading automotive part manufacturers in Hungary, is an integral part of the environment, and therefore we aim to create an operating culture that, in addition to manufacturing high quality products, also provides outstanding performance in the field of environmental protection.

In order to achieve this goal, our management is committed to protecting the environment and we pay particular attention to making good environmental practice a common goal for all our employees and those who represent the organization.

Our company is committed to creating opportunities for continuous improvement and we strive to minimize the environmental impact of our activities and reduce greenhouse gas emissions.

We continuously monitor and comply with environmental legislation, regulations, and other requirements, set specific targets and programs to implement our Environmental Policy and adhere to the principles and objectives of environmental procedures, instructions and targets.

In our Environmental Policy we commit to:

- To continuously monitor, comply with and enforce relevant environmental legislation, regulations and other requirements, and to continuously improve our environmental performance.
- We strive to reduce and prevent pollution from our activities, to manage resources sustainably, including through the use of renewable energy, and to replace polluting technologies and processes with environmentally friendly solutions, taking into account economic and technological opportunities, in order to minimize environmental impact.
- Our target is to increase energy efficiency - including reducing greenhouse gases, recycling as much waste as possible, managing water use, minimizing environmental impact - through monitoring and regular measurements.
- Educating our employees and those who work on behalf of the organization, emphasizing the principle of responsible chemical management - and developing their environmental awareness - is important to us, so that they recognize and reduce the environmental impact of their activities.
- We will provide the necessary financial, human and other resources to ensure that we operate in an environmentally responsible way.
- To improve environmental protection, we communicate regularly and openly with our customers, suppliers, authorities and other stakeholders.
- We regularly carry out reviews, internal and external audits in order to identify environmental hazards in a timely manner and to reduce their negative impact on the environment.
